

# TILT TRAY

## INSTALLATION GUIDE

1 Locate the tilt tray, 1 piece of soft sided velcro, and 1 piece of rough sided velcro.

2 Remove the backing from the **rough** sided velcro. Place the velcro horizontally inside the tilt door, **2 inches** below the top of the door.

3 Remove the backing from the **soft** sided velcro. Place the velcro horizontally along the top center of the back of the tilt tray.

4 Place the tilt tray in the cabinet. Secure the pieces together by pressing firmly.

### NOTE

Larger cabinets such as the one pictured will require 2 tilt trays.
